HEALTH COMMUNICATIONS, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. These dramatic first-person essays detail spectacular serendipities, impossible cures, breathtaking resuscitations, extraordinary awakenings, and recovery from unimaginable disasters. Kennedy s son Patrick, who died shortly after birth, and whose disease eventually led to research that saved generations of babies.A nine-year-old boy who was decapitated in a horrific car accident but survived without neurological damage.A woman who conceived and delivered a healthy babydespite having had both of her fallopian tubes surgically removed.A young man whose only hope for survival was a heart transplant, but just at the moment he developed a potentially fatal complication making a transplant impossible,...
