The Future and Beyond: Evidence for Precognition and the Survival of Death Studies in Consciousness Series

By H.F. Saltmarsh

Hampton Roads Publishing Co, United States, 2004. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book. The Future and Beyond comprises two of Harold Francis Saltmarsh s literary and scholarly jewels. Foreknowledge is Saltmarsh s thoughtfully organized summary of compelling data from the early 20th century for the existence of non-inferential precognition. He analyzes these startling, well-documented cases of the future affecting the past, discusses the implication of this data for our understanding of free will and causality, and proposes the existence of an extended subliminal present from which we obtain information about the apparent future. In Evidence of Personal Survival from Cross Correspondences, Saltmarsh brilliantly unravels and clearly explains F. W. H. Myers famous postmortem communications known as cross-correspondences. Myers, a great classics scholar and passionate psychical researcher of the 19th century, apparently sent messages after his death to several well-known spirit mediums on distant continents. Only partially intelligible separately, the messages proved to combine like jig-saw puzzle pieces. They offer striking evidence for the survival of the intelligence that was Myers, and provide some of the best evidence we have for the survival of bodily death. Myers purpose, presented by Saltmarsh, was to show...
